Eugene,
I am glad that I have known you. You really are a neat person. I'll see you during the summer at rehearsals I hope. Have a good summer and next year.
Diana

Eugene - your a really neat guy and we really fought to go [illegible] surfing this summer I really love you (NOT AFAG) Keep the faith your Brother Jack

To Gene - A "graphic artist" a "genius" "bulb" a successful and old - can "B's" forum! Best wishes - for a antique car restoration. Model "B" Buckett Queen in ALL.

Eugene,
Im so glad that
you came to know
the Lord. Its such
a great comfort
to know that
someone continually
loves you and cares
for you. Youre a
great pool shark
and a Spanish buff.
See you this summer
at church and around
Ill never forget the
first day you drove
by in your car and
honked. Its classy.

Not by the sun's arithmetic
or my own
can I make the days
go fast enough.
Yet there are those
who beg God daily
for an extra hour.
I wish for them no solitude
no time apart from what they love
and let them have their extra hour.

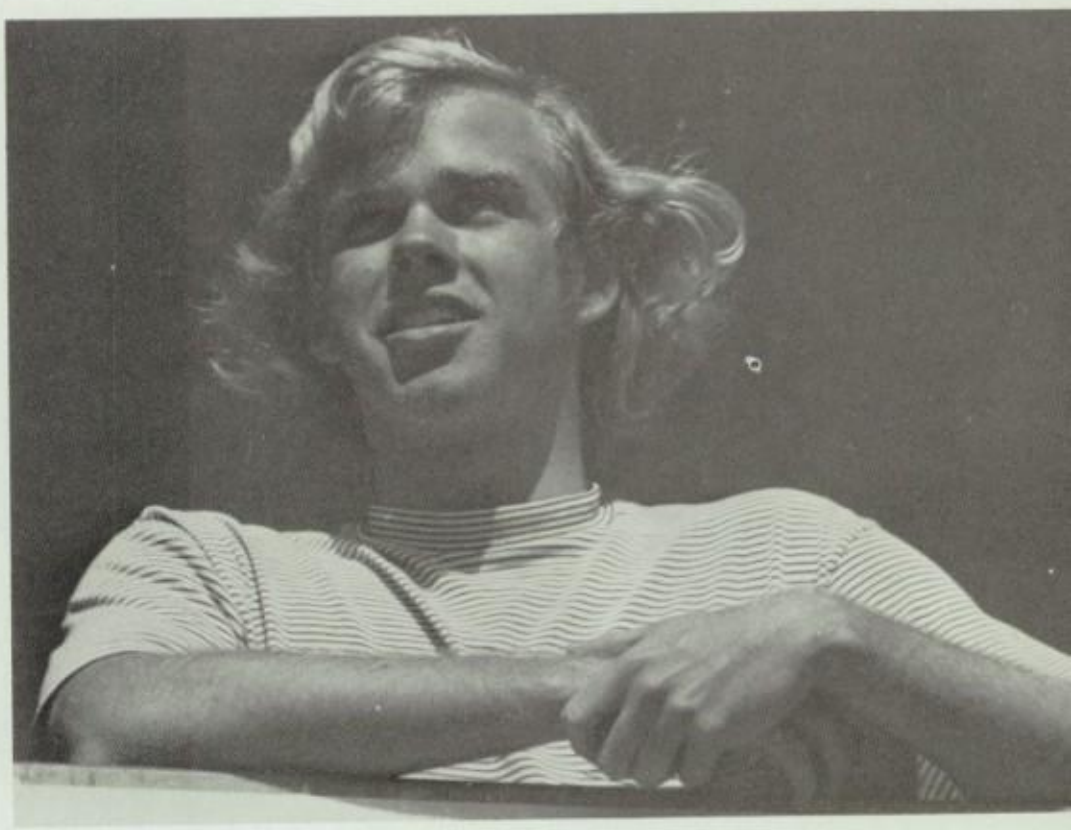
Lisa Freeman...

Evg,

It's been a good Senior Year. even if we hardly saw each other. I had great fun making fun of my brother, and cueing while Victory was in Palm Springs. In the words of a current group, Take it easy.

See ya later,

Pete Swetland



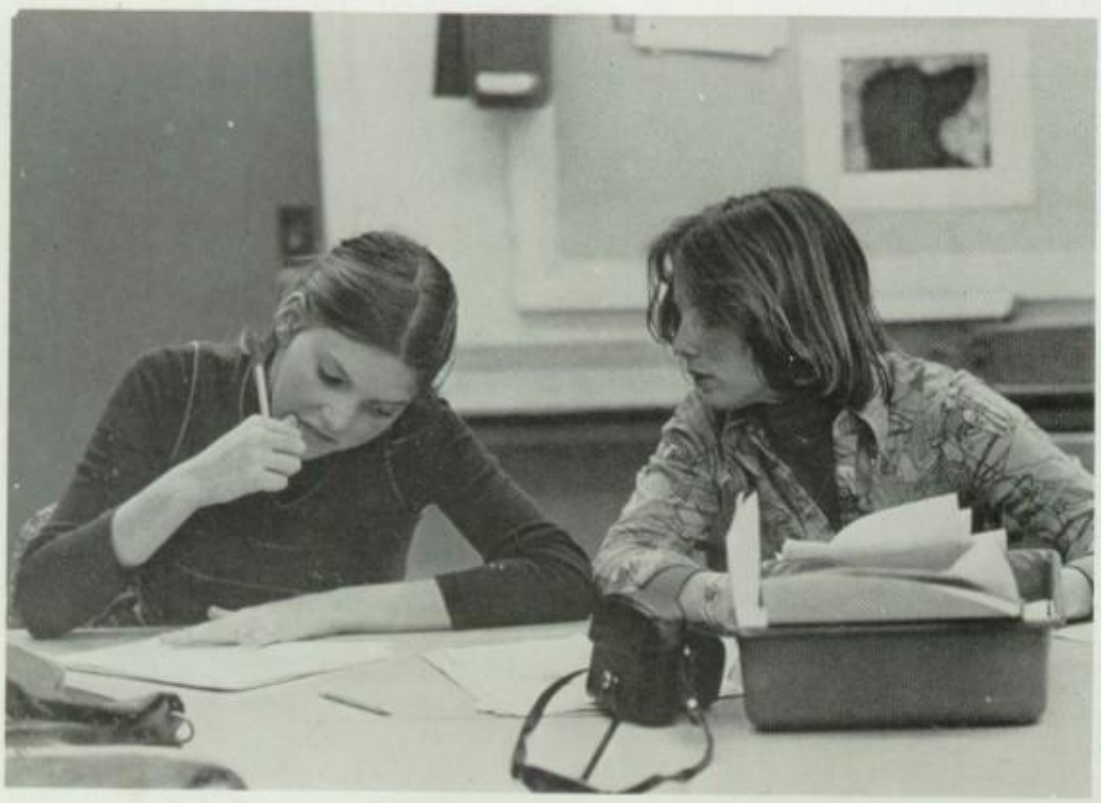
Death is like the growing of people — it cannot be stopped . . . John Erwin Age 11

Byron Cheval died on Feb. 7, 1975.
He left for many of us a memory of
smiles and happiness —
We will miss his presence,
but shall always remember the times
of laughter that he shared with his
friends —
— Colby Boss

Oh so rarely do we appreciate one's presence
and existence
Oh so very often they leave without saying
anything —
not even goodbye —
— Colby Boss

Keep a fire burning in your eyes
and pay attention to the open sky,
you never know what will be coming down.

I don't remember losing track of you —
you were always dancing in and out of view.
I must have thought you'd always be around.
Always keeping things real by playing the clown —
now you're nowhere to be found . . .
— Jackson Browne



I would like to thank Terry Price, Tom Karsten, Jenny Shore, Eric Friske, Marta Christensen and Craig Moody as some of the many contributing photographers to this section. Thanks to Jane Siegal, Patty Carson and Lee Weber for checking everything, and to Colby Boss for poems, etc. Special thanks to Rob "Touche'" Doucette; without his overwhelming help and cheerful year-round smile this section would not be possible. France, 7/7/77 — be there.

SORRY . . .

Scott deRuyter

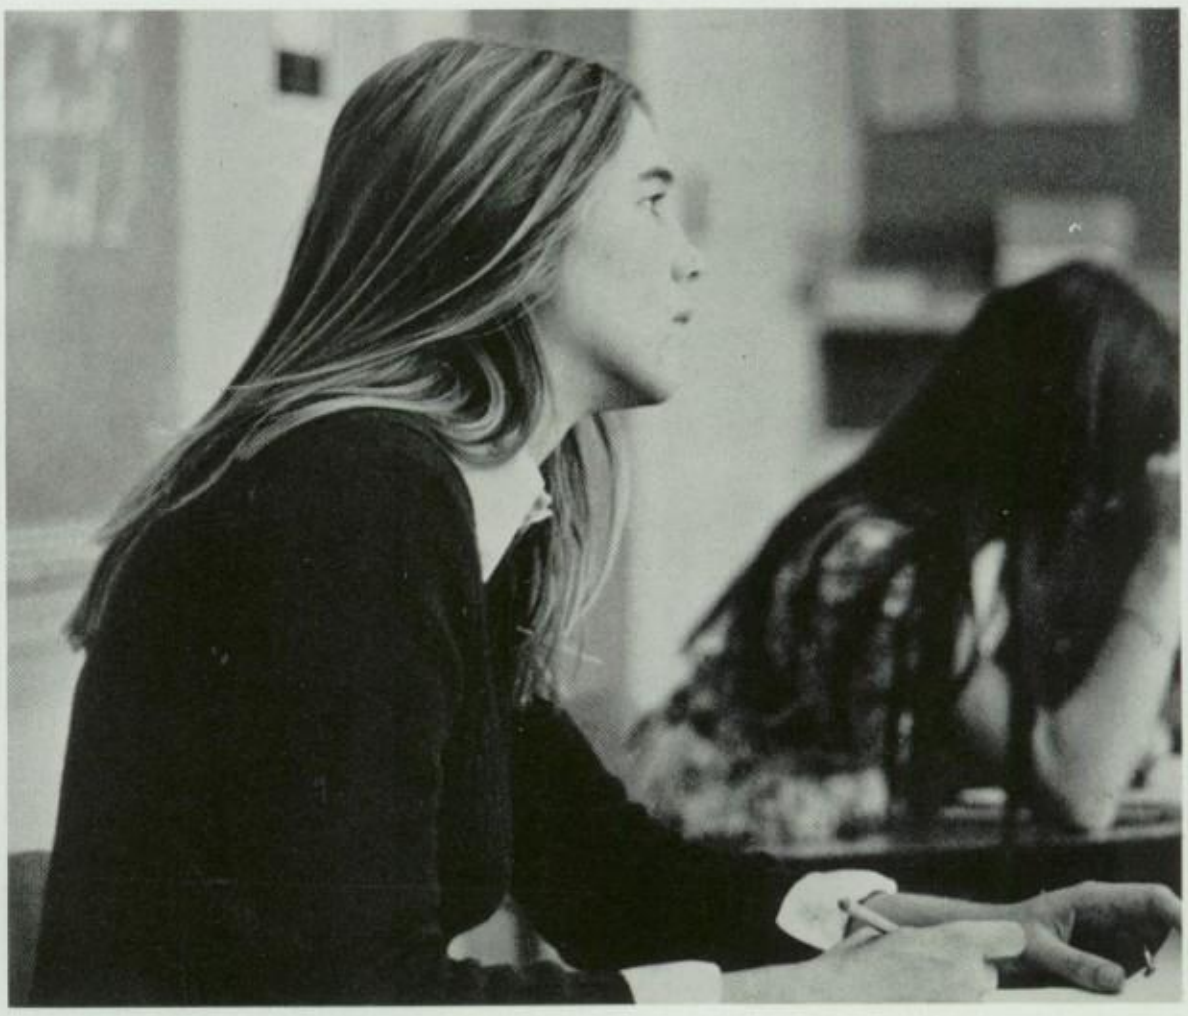
Suzanne de Varennes

Most of what my neighbors call good,
I am profoundly convinced is
evil, and if I repent anything, it is
my good conduct that I repent.

— Thoreau

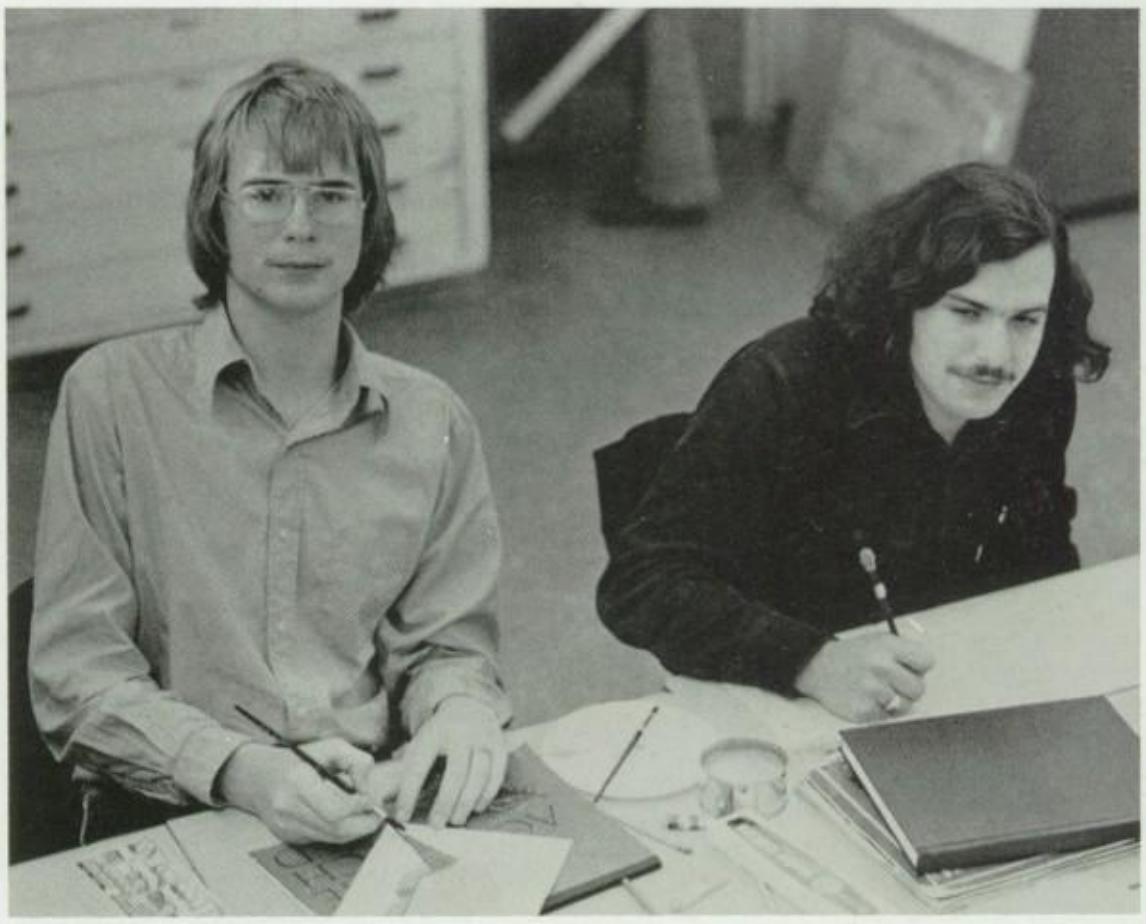
And you, of tender years
Can't know the fears
That your elders grew by
And so please help them with your youth
They seek the truth
Before they can die.

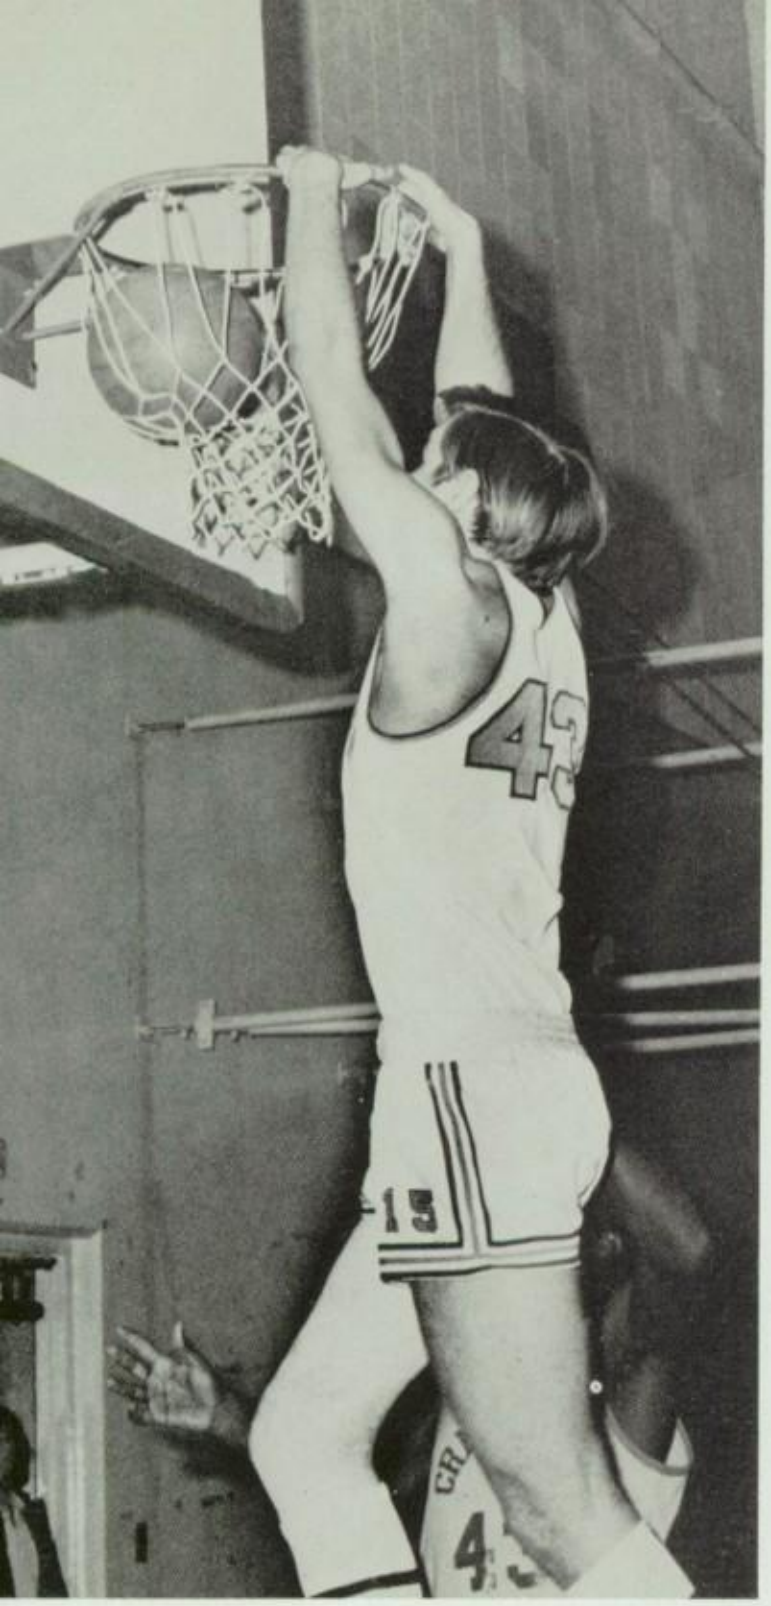
— Graham Nash

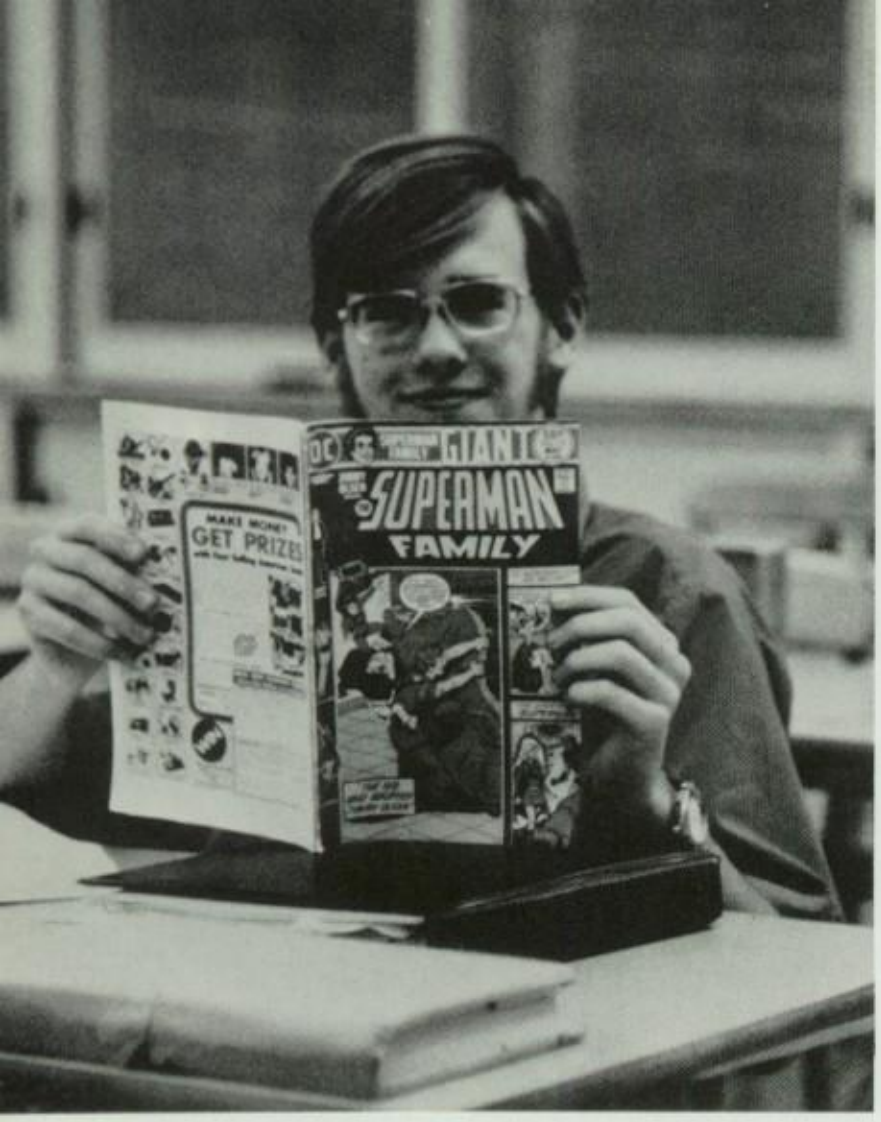


Everything in creation exists within you, and everything in you exists within creation. You are in borderless touch with the closest things, and, what is more, distance is not sufficient to separate you from things far away. All things from the lowest to the loftiest, from the smallest to the greatest, exist within you as equal things. In one atom are found all the elements of the earth. One drop of water contains all the secrets of the oceans. In one motion of the mind are found all the motions of all the laws of existence.

— Kahlil Gibran







Let the word go forth from this time and place, to friends and foe alike, that the torch has been passed to a new generation of Americans, born in in this century, tempered by war, disciplined by a hard and bitter peace, proud of our ancient heritage and unwilling to witness or permit the slow undoing of those human rights to which this nation has always been committed . . .

— John F. Kennedy

TEST TODAY
HEY, WHAT'S NUMBER SIX?
TEST
SURF'S UP

Dear Eugene,
Alas for the good old days of walking from Revere .... Nostalgia time. Thanks for coming by with the Model A and a sense of humor to cheer me up. PLEASE come in the summer and don't let me intimidate you. Be assured its mutual, but I think you're great (How trite but true)
Love,
Val Kwelson

Eugene,
This may be a strange thing to write in a year book ... but I have a book I think you'd like to read it's called The URANTIA Book. I know you'd love it. In the last part it has the whole story of the life of Jesus. It takes up where the bible leaves off. I think its the most beautiful story and I could tell from the way you talked to the sunday school kids (who still talk about you) that you could get alot from it.
... Well
Hasta la vista
Love Diane

Eugene,
Your Ceramics was fun.
Your imagination was great
as that does. I've known you
since junior high. Good times
have been spent and have past,
but we all must go on for the future.
I hope that you will succeed in
everything you do. The best of luck.
Take care of yourself and all by till then

Was the sun so bright
that no one saw me
sitting there
or walking by?
Sometimes I wish the sun
wouldn't shine,
and hope it would rain,
maybe then it would clear up
and people wouldn't ignore
the lonely,
they often see.

Dear Tramp,

So - I suppose that since this is your SENIOR YEAR BOOK I should write something you can remember & look back on a long time from now - but, I'd rather that you'd have me to look back on rather than a bunch of scribble. (Mushy, aren't we) You know what of all the tramps I've ever known - I like you the best. I also love you more than I could ever say, so I won't. Thank you for helping me so much.

I'm really glad that you shared the happiness I found when I finally woke up to the truth.

There's too much to say - it's best to leave it unsaid.

God bless you, tramp.

I love you forever,

Annie

THANK YOU

The wide world weeps its wondrous woes yet hope for peace and joy still grows in hungry hearts with secret dreams at Christmastide when all souls seem to soften for a moment's time and give us Rea-

son for this Rhyme. So Banish fear this moment rare and come each year to Headstart Christmas Faire — so speed the day when joy and peace are firmly cast around the Good Green Earth at last.

I am living with the Kosh family. My name is Marie-Emmanuelle Bach. I am a French A.F.S. student from Paris. I have now spent 7 months here, and I am now nearly to the end of my staying. I could tell you that "I have had a really good time in Pali High." But it would not be true. I have not had a "good time" but surely a very enlightening experience. Before I came here, I had been told by the A.F.S. returnees "Oh you will see, the A.F.S. student is really something special, a real little star." I was stupidly disappointed to realize that in Pali the A.F.S. student is just an average student. The first month, I took the attitude of criticizing everything from the girls league to the football game. But during the rest of the year, I made friends, "Maouche's friends" and not the "French A.F.S. student's friends," I began to understand, accept, adapt myself, and at least adapt myself to the inside life of an American school. I was personally concerned by the victory of defeat or the Pali football team. Now looking back to my year, I can be happy that I had the occasion to live the real life of an American student instead of a "little starlet," it sure was a more enriching personal experience. I was also interested by the educational system which is so different from the French one. The French requirement is more extensive so the students would have a better cultural background, in the university, but the American one is much more democratic giving the occasion to the student to choose very soon. About the homelife, there is no big change between American and French life except in the food. That is maybe the only thing I didn't get used to, hamburgers and hot dogs. But this is not going to keep me from coming back in maybe 2 years or later.

I am Genet Bakele, 18 years old from Addis Ababa "Ethiopia." In Ethiopia I have a sister and two brothers, who are younger than I. My father is an army officer and my mother is a housewife. Ethiopia is located in East Africa. The population is about 27 million people. Most of the population is employed in farming. Most of them are members of the Coptic Orthodox Church. The Coptic's have the oldest continuous Christianity in the world. There are also some Ethiopian Moslems. Ethiopia has never been under foreign domination except during the Italian occupation from 1926-1941. The Ethiopian calendar is quite different from others all over the world. According to it now, we are in 1967 AD. Each month has thirty days and there is thirteenth month called Paqume which has five or six days. The new year starts on September first. The national language, Amharic, has its own 250 letter alphabet and script. English also has become the universal second language. The main reason that I applied for A.F.S. is to know the difference between the cultures of Ethiopia and the U.S.A. To know the daily things that people do for their country and for themselves, and to know in what careers women participate. I really have been enjoying myself this year. I have learned so many things that are different from my country.

Hi! I am Grazia Figini. I come from the north of Italy and my city is Como. My family in Italy is composed of my parents and older brothers. In Italy I attended the High School called Liceo Scientifico. My first difficulty in the U.S. was the language. I can't forget my first experience with American food — When my American family asked me if I would like to eat for lunch a hot dog. When I heard that word I was afraid that it was a kind of dog food. But fortunately the difficulty for the language was overcome, because of the splendid natural talent that Italian people have . . . we speak with our hands. I want to take advantage of this occasion to thank the A.F.S. people and all the Palisades community.

SERVICE ORGANIZATIONS

Any student may apply for membership in a service organization. Students may perform services for their school in many ways:

10th grade Service Groups

Naiads (girls) are eligible to join at the beginning of the 10th grade year. Once enrolled each girl finds a teacher or a school office for which she can work on her own time before or after school, during lunch, or nutrition. In this way she accumulates 50 hours of service which entitle her to preregister in the Fall. Students with 25 hours of service receive a certificate but do not preregister. Miss Kennedy

Tritons (boys) must have had a C+ average and a record of service in junior high school. Tritons serve at school functions, athletic events, fundraisers, etc. They too earn 50 hours of service credit in order to qualify for pre-enrollment in the fall of the 11th year. Mr. Chatham

11th grade Service Groups

Marinas (girls) are required to attend weekly meetings and do service for their school. One of the main areas of service is helping in the cafeteria. They also assist the factuly, PTSA, and boys' athletic department in special events. They have several social and get-acquainted affairs during the year. Mrs. Jochim

Ensigns (boys) This organization also performs service during athletic funds and other school activities. Members are required to achieve and maintain a 2.5 grade average. Upon completion of 50 hours of service, members are allowed to preregister for their classes in the Fall of the Senior year. Mr. Duckett

12th grade Service Groups

Athenians (girls) have achieved the honor of being Senior service girls in the school. They work on many community service projects and assist in organizing the junior girls. Athenians are often recognized on special awards and scholarships of their continued service to their school throughout their 3 years at Palisades High. Many student body and class officers are selected from the ranks of Athenians. Dr. Williams

Knights (boys) This is the Senior service organization which provides service of a variety of school activities, including athletic events. Members also assume responsibility for organizing and supervising other service workers. Knights often support other major school activities such as Boys' Week, Homecoming, and Open House. Members attend regular meetings. Mr. Dodd

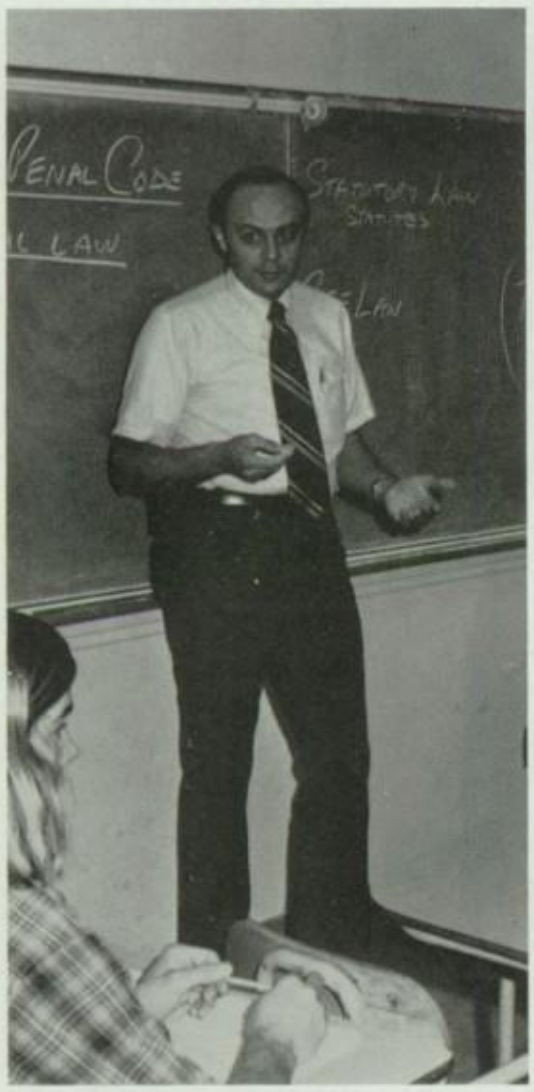
NEW AND RETURNING FACES

PRINCIPAL — SPRING

Mr. Robert Simpson — As I sit down at my desk to write, I'm wondering what the Principal's message in your parents' school annual has to say. (You might want to look it up.) If you were called upon to compose a message to a twelfth grade graduating class, how would you change what was written, that many years ago.? One thing for sure, you certainly would change it, wouldn't you? Our world is not the same — there are so many new problems, new decisions, new apprehensions that must be dealt with. Would yours be a message of hope and optimism? Would it be one of warning and foreboding? Or of frustration and cynicism? Think about it, for I suspect that the attitude with which you might approach such a message could well be a clue to the attitude you will have as you face life after moving on from Pali.

Obviously, many decisions and a lot of hard work lie ahead of you. We here at Pali can only hope we have done our part in preparing you, and we all wish only the best things in life for each and every one of you.



Sergeant Bob Fernandez — I'm very happy to be back at Pali this year. As a Palisades resident I am concerned about promoting a better understanding and greater cooperation between the community and the components for the Administration of Justice System. I feel that the "Youth and Law" class is a positive step toward that goal.

Mrs. Jeanne Hernandez — This last semester I was away from Pali on sick leave. During the period of recuperation I studied American sign language, "Ameslan." My hope is to someday assist non-hearing persons at the college level to write standard exposition. During this time, I also found out about wok cookery, as well as what restaurants offer for lunch, and how many trashy books there are. I found my time away from Pali began to weigh very heavily on me and I am very glad to be back.

Ms. Ruth Foster, PHN

Ms. Judy Berman — The Alternative school at Pali offers a unique learning environment which allows each student to participate as an individual, with unique talent, interests and ideas. As a teacher in the community experience, I try to expand each students awareness of his personal freedoms, and his choice, and allow him/her to interact on a personal level with the material. It is an exciting and always new experience for me.

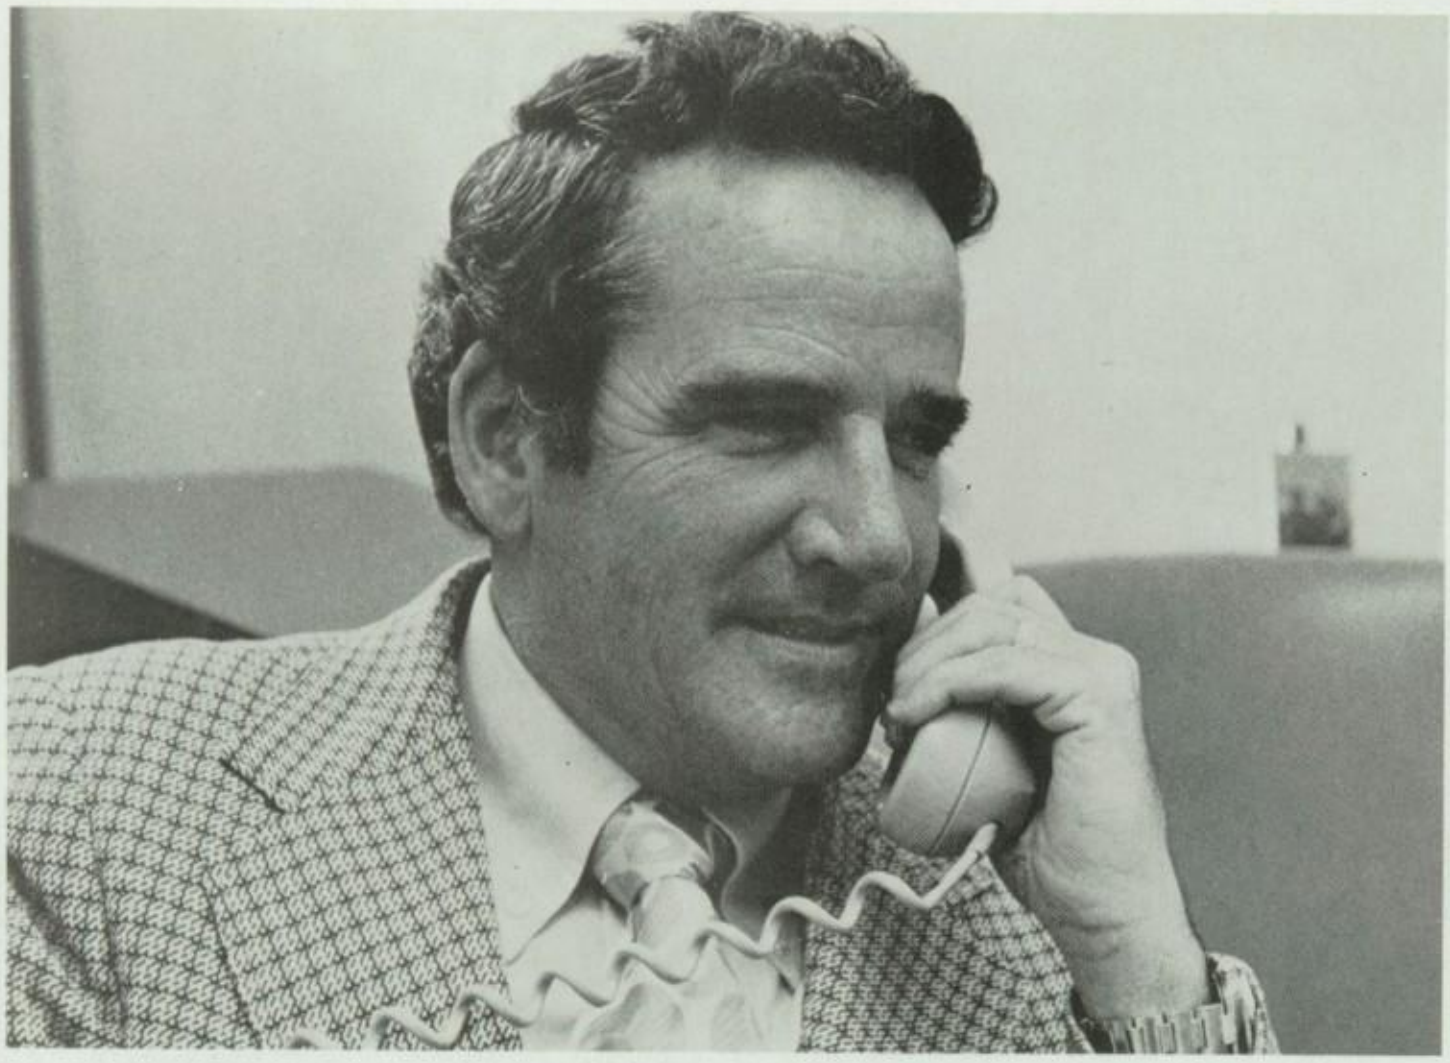
Dedication

Webster's definition of a teacher is that of "one whose occupation it is to instruct." But for many teachers this definition falls short, for to them, "Teaching is a thing that is done with a great amount of love and devotion."

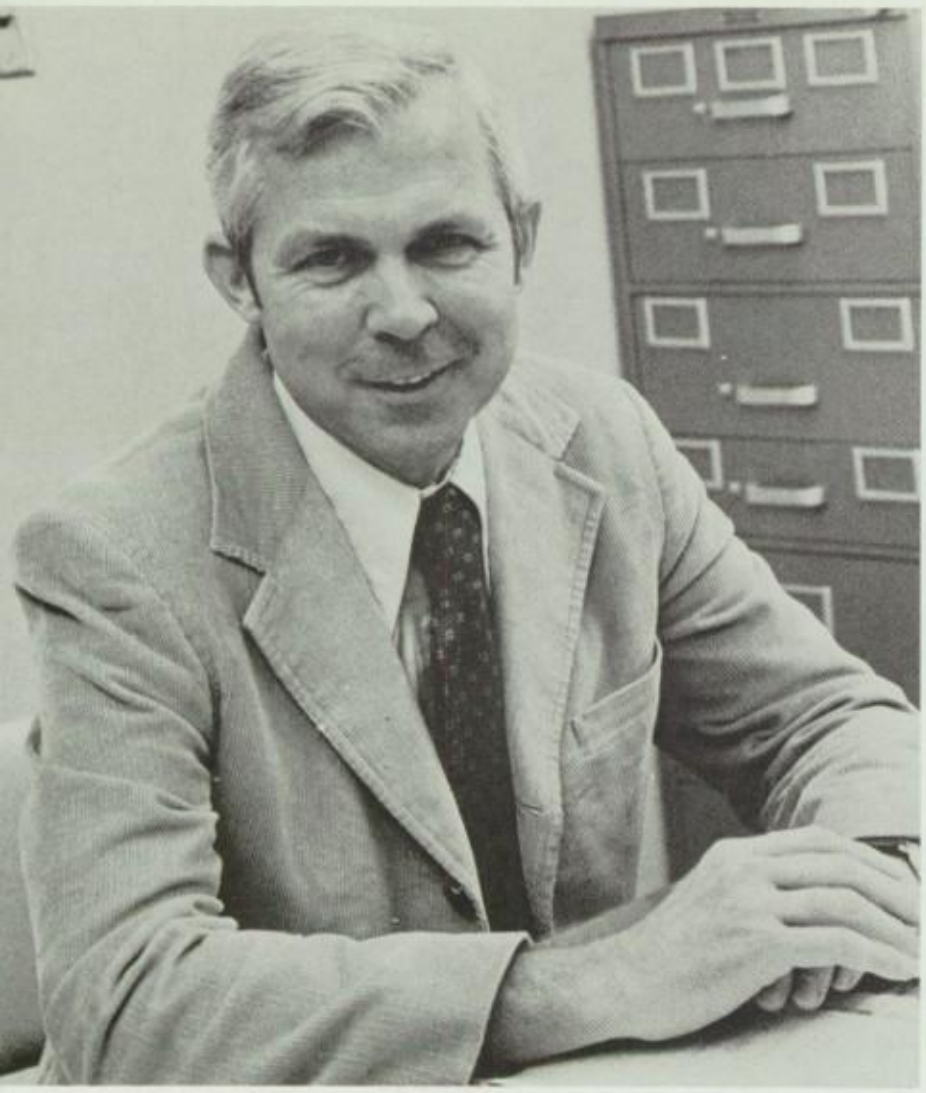
At Palisades we are fortunate for we have a teacher who truly epitomizes this definition — Mrs. Rose Gilbert. She puts out more effort in teaching, much more than her students do in learning, for to her, teaching is a "labor of love." With this in mind, we the Surf Staff of 1975, dedicate this Yearbook to Mama G., hoping to return some of the love and devotion she has given to us.



A basic goal at Palisades High is to "provide the best possible educational environment for all students attending this school." Since none of us is given an education, it is then the responsibility of the individual student to take advantage of the environment. Like nearly all worthwhile things in our lives, we must work to achieve them. The effort expended in reaching goals is quite often one of the most satisfying aspects of achievement.

The outstanding record of this senior class, in and out of the classroom, indicated that you have taken advantage of the opportunities available in the many phases of school life at Palisades High. The Solarians have certainly met the challenge of making this 1974-75 school year a great one. We are very proud of this graduating class and wish the very best to each and every one of you!

James A. Mercer
Principal



Ideals in life serve as measuring rods for success. Ideals, however, are not enough to insure that success. They must be coupled with an appropriate exertion of effort.

The Palisades High Class of 1975 has not only demonstrated its concern for high ideals, but also has demonstrated a willingness to make efforts toward achievement of those ideals.

It is with great confidence therefore, that I congratulate you on your many achievements and wish you continued success in the pursuit of your ideals.

Gerald M. Dodd
Assistant Principal

"One ounce of truth benefits, like ripples on a pond,
One ounce of truth benefits, like a ripple on a pond,
As things change, remember my smile . . . . . .
Remember I smiled, when I'm gone . . . . . ."

Excerpts from "Like a Ripple on a Pond"
— Nickki Giovanni

In this time of "Watergate" and general disillusionment with our political leaders, it is important that we begin and continue to look at life straightforward, with honesty and integrity. If we are not honest with ourselves, we cannot trust others to be thus. This is a great class of neo-adults, who — will, I feel assured, contribute greatly to this community and to the world at large . . . some more than others.

As this class of 1975 graduates from high school, I wish them the best of all possible worlds. If each of you will remember to be honest first to yourself and then to others; and to accept each person as he is, then I will predict great success will be yours.

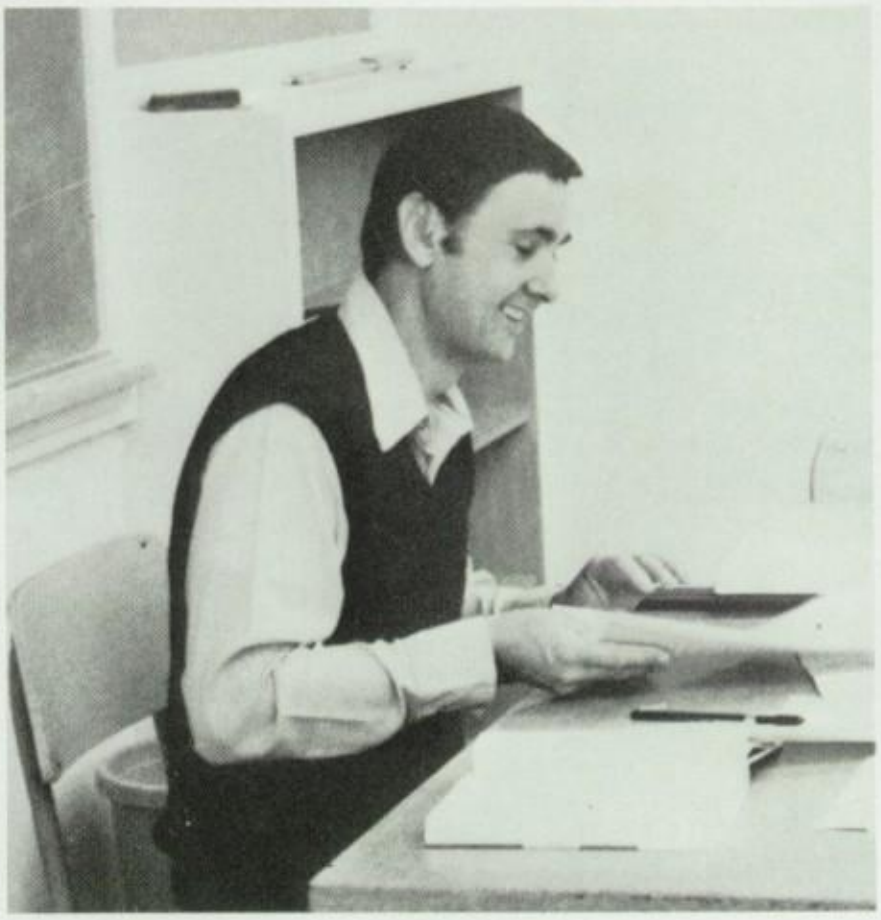
Alternative School

PASis

an opportunity for the student to create and demonstrate his ideas and to develop a figure formed by himself. Every student has the opportunity to utilize and mature his learning ability through Alternative School. He can choose the path of proving to himself that he need not be pushed to learn and that with increased freedom to do as he pleases, he will utilize every opportunity to its full potential. Or he can be indifferent about the situation and take an adverse advantage of its uniqueness. Through this unique concept, one can shape himself and his school to his own wishes.

a place where the student becomes the reflection of his own motivation, goals, character, ability, and desire. For many it is the first time they become a product of themselves rather than of the teacher or the class. When the student in Alternative School feels satisfaction, it is his own. For some Alternative School is the answer; for others it is not. For me it is an experience in experiencing myself.



Mr. Arthur Thomas
"Let me get myself organized here first!"

more than a classroom; it's a way of life. It stimulates me. It teaches me that the world is one big teacher.

is a great learning experience. It teaches you self-discipline. It's a great way to get to know people and make friends. But it's not just a goof-off experience; you really have to work for a grade.

a forerunner of the kind of change our educational system needs and hopefully will have in the future. At present it has great potential. Whether we students are really fulfilling that potential or not is a hard question to answer.

freedom to express my own thoughts and the chance to learn about what I'm interested in.

Ms. Mary "Toni" Long
"Cut the 4-letter Anglo-Saxon words!"

Mr. Algis P. Karalius
"O.K., dismissed!"

an experience in responsibility and self-motivated learning.
an ideal sense of community. We are all together and are learning about life in unison.

a family that works together and learns together. It is getting to know the teacher as a person and a friend, not just a machine that stands up in front of a classroom. It is also being treated as an adult, not a number or a face in a crowd. PAS is a happening.

a place I like because I'm getting along quite well. I'm working well and getting along socially.

the freedom to be a unit in a set of one hundred, to feel closeness without suffocation and to learn from oneself.
a way of going to school and dropping off a lot of busy work that's usually not necessary to learning. It is also having enough freedom to allow you to move.
a unique school in which both students and teachers care about one another.
a place where laughing and learning go hand in hand.

beyond definition. How can you define love?

a good program made great by the excellence of its teachers.

a place to test the freedom one will have in college. One can adjust to the conditions he finds, rather than wait until college, when it may be too late.

an interesting experience, though it's been hard to adjust to the irregularity of the classes. But I'm getting used to it.

a joyous time I've had
and many things I've learned;
to love and laugh,
and cry when I think of leaving.

To all my friends and enemies
To all the good times and hardships we've had.
I say to you now,
Please remember our feelings of growing,
Maybe we'll meet again on the way
Back home. — Colby Boss

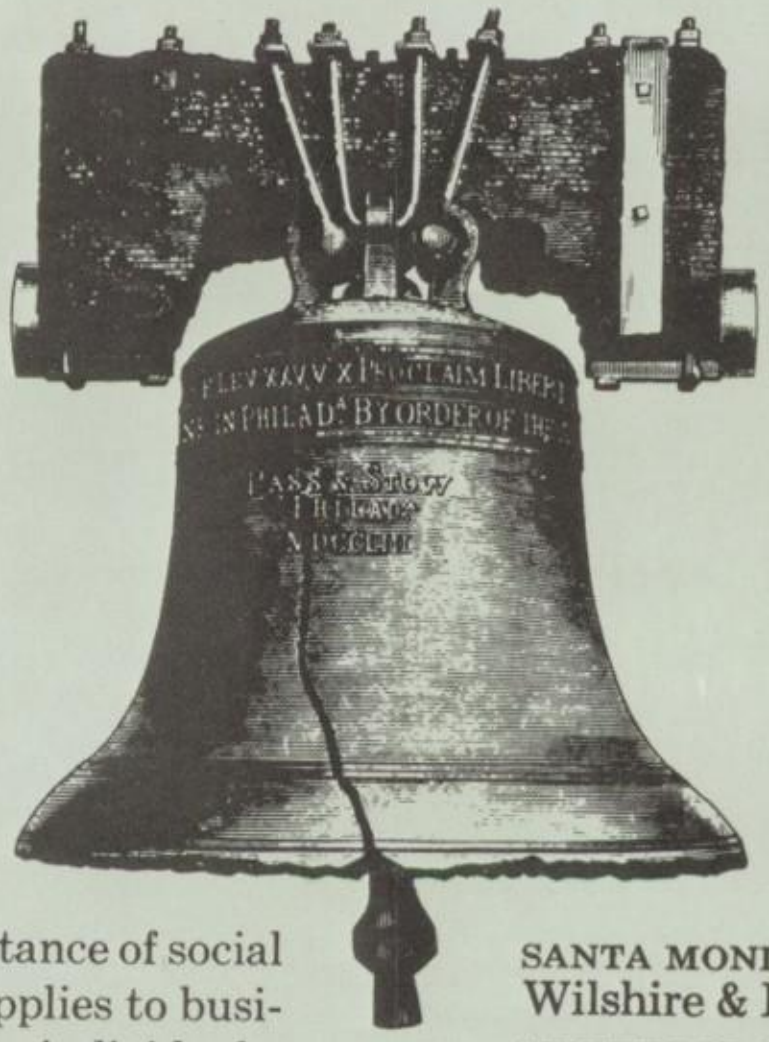
If each citizen does not use his freedom to try to make things a little better, then his apathy helps to make things a little worse.



The critical importance of social responsibility applies to businesses, as well as individuals, because businesses are actually just groups of individuals.

At First Federal Savings, we strive to fulfill our social obligation by action: each year, thousands of hours are given by First Federal people to numerous charitable and public service organizations. Monetary contributions help the handicapped, the troubled, the young and the old.

We believe only a concerned citizenry can ensure a society which is responsive to the needs and goals of all its members.

The bell will not ring by itself.

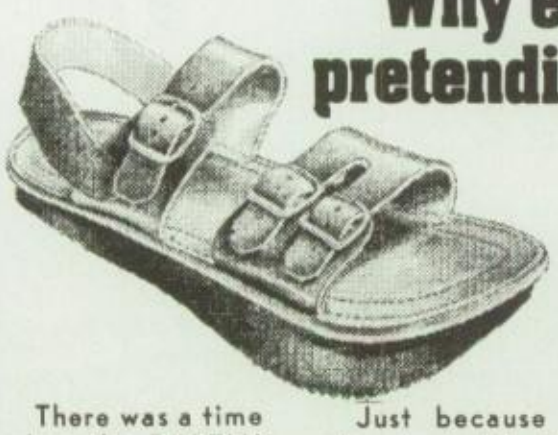
Of course, I will be glad to sell you tickets. But, I'd rather like to think that you will want to get in touch with me because I can do more, much more for you. I speak fluently five modern languages. My technical and personal knowledge of worldwide travel are mirrored in twenty-four years experience as a professional, certified travel counselor, in numerous Atlantic, Pacific and polar crossings in flight and by water, in scores of intimate explorations of timeless Europe, in journeys to Antarctica, and to the far islands of the Pacific. Travel is my life, not just my livelihood. Call my office, and ask for a personal appointment with me. While I depend for detail work upon my trained and dedicated staff, I want you to know that I take pride in laying out each journey personally, be it by sea, by air, in a jeep, on a camel or on an elephant. The essence of it is that I do not operate on continuously repeated pattens, but carefully tailor each assignment to your interests and to your individuality.

Why everybody's pretending they're us.



There was a time when the EARTH* negative heel shoe was the only shoe in the world with the heel lower than the toe. In those days the other people who made shoes just laughed at us.

But things have changed. And now that you love our Earth brand shoes so much, the shoe companies have stopped laughing and started copying.

But what they don't understand is this. Merely lowering the heel of a shoe isn't enough. And imitating the outside of our shoe isn't enough.

Just because a shoe looks like the Earth shoe doesn't mean it works like the Earth shoe.

It took many years to perfect the Earth brand shoe. To get the arch just right. To make the toes wide, comfortable and functional. To balance the shoe. To mold the sole in a special way so that it will allow you to walk in a natural rolling motion. Gently and easily, even on the hard jarring cement of our cities.

And the Earth shoe is patented. That means it can't be copied without being changed. And if it's changed it just isn't the Earth shoe.

So to be sure you're getting the Earth brand shoe, look on the sole for the Earth trademark and U.S. patent # 3305947.

You'll be glad you did.

Shoes, sandals, sabots and boots for men and women. From $26.00 to $45.00.

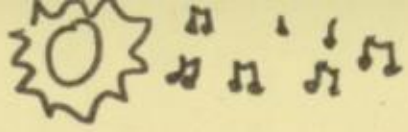
Dear Eugene,
Of all the people I'm going to miss next year, I'm going to miss you most of all. Ice-cream cones, guitars and singing, punchiness, and Badfinger. Everything is special and magical when you're around. You're the best friend a girl could have! Eugene, I really hope God pours His blessings on you and I hope you can learn His love even more fuller in the future. You are a wonderful, beautiful person. I love ya, I love ya, I love ya
love,
Margaret

Dear Eugene



A friend from a distant star unless of coarse the sun hasn't been brightened with happiness & moonshine.

Love with emeralds & Jewels from beyond all to friends of Jesus.

Love Rob God Bless

Eugene,
It's been great having you in my spanish class to brighten up the day with your guiters, banjo, harmonica, etc. Keep on playing. Have a great summer, and maybe I'll see you again someday.
Erik Spak

Eugene &
good luck at whatever you decide to do
I've learned a lot from you

Well Eugenio,
Are you still writing music or lyrics on the back of homework papers and homework on the back of photos? Your musical entertainment is a good break from a routine school. Keep playing and H practice, try singing in spanish. Most humbly signed,
Roberto Frederico Esquire

Eugene - Have a great time next year, wherever you go to school. Mr. Parry's class last year was definetly an experience. I feel honored that you came back to school today (6-13). Rick Zarenus

Dear Eugene,
It was fun knowing you this year especially this year in Spanish
Good luck next year and have a good summer. Bon Voyage & don't drive!!!
good luck
John Alle

Hey Eugene,
you're graduating!!!
It's been really great in espanol with you. You made Spanish that much more enjoyable. You're really super. Much Luck to you! Love,
Maria

Dear Eugene -
I like you alot, I think that you are a really nice person, I'm glad that I got to know you. Now I know someone who is weirder than me. You are probably going to have a really good summer & an even better year at college. I won't forget you (at least until next month) and you will no doubt still go to church so if I ever get the courage to go I may see you there. Well it was a whole bunch of fun in graphic arts, and if you've taught me one thing I know that you've got a lovely bunch of coconuts all standing in a row. Keep the faith (ha ha!) Love

Eugenio
It was really neat getting to know you. You are a neat person & I love the way you sing. I'm sorry John weird going to become a salesman. Anyway's take care & have a bien sommer.

love,
Vicky

Hi,
This is Anne's friend with the Plane Edward.
Call 454-3933 in 20 yrs. and see if you're still single.
My boyfriend thinks you're so cute.
I love you
Thanks for
throughout Europe.

Dear Eugene,
I'm glad you were in Spanish this year. Who's going to play Diane's guitar next year? You really do play so nicely - I love listening. I'm going to miss it next year. Have a wonderful summer - and a wonderful time sailing all over the world - don't forget to come back to visit

love,
Amy Lewis

Dear Eugene:
Since I'm taking Spanish as an elective next year, I won't be in your class. But I'll be sure to stop by and say hello. I'm sure you'll have a great summer. Be sure to write. Have a nice trip to Europe.
Love,
Vicky Lewis

Dear Eugene,
Thank you for your card. I'm taking Spanish as an elective next year, so
